COVID-19 INFORMED CONSENT TO TREAT

I understand that the novel Coronavirus (COVID-19) has been declared a global pandemic by the World Health Organization (WHO). I further understand that COVID-19 is extremely contagious and may be contracted from various sources. I understand COVID-19 has a long incubation period during which carriers of the virus may not show symptoms and still be contagious.

I understand that I am the decision maker for my health care. Part of this office's role is to provide me with information to assist me in making informed choices. This process is often referred to as "informed consent" and involves my understanding and agreement regarding recommended care, and the benefits and risks associated with the provision of health care during a pandemic. Given the current limitations of COVID-19 virus testing, I understand determining who is infected with COVID-19 is exceptionally difficult.

 person I under have the with resident of procession of the process	a contact, in which COVID-19 can be rstand that I am opting for an elect the option to defer my treatment to ceeving treatment during the COVID rstand due to the frequency of appo cedures, I may have an elevated risk rm I am not experiencing any of the ver ortness of Breath rstand travel increases my risk of con st 14 days I have not traveled: 1) Ou -19; or 2) Domestically within the Un formed that you and your staff hav -19.
